PROFESSIONAL SUMMARY

A cybersecurity professional with a strong foundation in cloud security, GRC, and CNAPP across AWS and Azure. Possessing 2 years of hands-on experience in **DevSecOps, cloud security (AWS & Azure), GRC, and CNAPP**, with deep expertise in **Prisma Cloud, AWS Security Hub, Azure Defender, and automation using AI, Terraform, Python and Excel**. Proficient in **Python, web development, and Linux**. Outside of work, I actively volunteer in leadership activities such as Department President at Vishwaniketan iMEET and Group Captain at Armed Forces Preparatory Institute, demonstrating **mentoring and leadership skills** toward shared goals. Known for **strong communication, sound ethical judgment, and a collaborative approach** to solving complex security challenges.

KEY SKILLS

- | | | |
|----------------------------|----------------------|------------------------|
| • Leadership | • Strategic Planning | • Strong Communication |
| • Collaboration & Teamwork | • Problem-Solving | • Ethical Judgment |
| • Time Management | • Reliable | • Adaptive |

Technical Skills: DevOps, Cloud Security, Governance, Compliance, CSPM, CIEM, CWPP, DSPM/AISPM, AWS, Azure, Firewall, WAF, VA, Linux, Docker, Kubernetes, IAM, Python.

PROFESSIONAL EXPERIENCE

Essen Vision Software Pvt. Ltd., Mumbai, MH

Jul 2023 – Sept 2025

Cyber Security Analyst

- Led end-to-end DevSecOps security across code-to-cloud infrastructure with more than 5 departments for large enterprises and financial institutions, directly reducing exposure of production systems to critical vulnerabilities and ensuring client environments met the compliance standards.
- Focused on securing cloud applications and workloads, cutting MTTR by over 70% for severe risks through automated alert triage and remediation workflows using Python and Terraform, directly shrinking breach windows and reducing risk exposure for clients handling sensitive financial and enterprise data.
- Interacted with clients daily to understand requirements and deliver tailored solutions, while managing 3 cross-functional teams, to make sure there was no cascading effect on other assets because of the remediations and automations.
- Implemented Governance Risk and Compliance frameworks, delivered RCA and compliance solutions, and advised on cloud architecture and security controls to strengthen overall security posture from 45% to 90% in 1 year.

Avignon University, Avignon, France

Jun 2022 – Jul 2022

Project Intern

- Collaborated on research projects at Avignon University, France, including darknet monitoring for automated detection of malicious activities across more than 200 daily data points. Developed a custom detection algorithm combining Python, cybersecurity tooling, and ML, contributing to a 30% improvement in false-positive reduction during testing.

Virtual Testing Foundation, Remote

Oct 2021 - Dec 2021

Penetration Tester

- Completed a cybersecurity internship focused on OWASP Top 10 fundamentals, web application penetration testing, and vulnerability exploitation using tools such as Burp Suite, identifying 15+ vulnerabilities across simulated environments and reporting them to the respective businesses.
- Collaborated on real-world scenarios through labs and a final Capture the Flag (CTF) challenge, prepared penetration testing reports, and engaged with the cybersecurity community.

Supraja Technologies, Remote

Apr 2021 - Jun 2021

Web App VAPT Intern

- Cybersecurity internship covering Web Application VAPT and Bug Hunting, gaining hands-on expertise in OWASP Top 10, web-app penetration testing labs, and professional use of tools such as Burp Suite & Nmap, identifying and reporting multiple vulnerabilities for the open bug bounty programs.
- Learned end-to-end bug hunting workflow, including reconnaissance, vulnerability exploitation, and report generation.
- Strengthened skills through real-world simulations, real-time bug hunting, and professional pentest documentation while engaging with the cybersecurity community.

EDUCATION

Deakin University

Master of Cyber Security (Professional)

University of Mumbai

Bachelor's in Engineering – Computer Engineering

COURSES AND CERTIFICATIONS

Prisma Certified Cloud Security Engineer, Palo Alto Networks

Jun 2025

MTA - Security Fundamentals, Microsoft

May 2021

VOLUNTEER EXPERIENCE

Vishwaniketan iMEET

Aug 2022 – May 2023

Department President

- As the President of the Student Council for the Computer department, I worked to support the needs of all students for industry-level exposure.
- Implemented both academic and extracurricular events, focusing on technical activities that helped students improve skills and explore new ideas.

Armed Forces Preparatory Institute

Aug 2017 – Apr 2019

Group Captain

- Led and coordinated the daily routine of 70+ cadets in Alpha Company, managing duty rosters and sports activities while ensuring fairness, discipline, and smooth communication across batches.
- Encouraged teamwork and guided junior cadets, motivating participation in sports events, and fostering camaraderie and confidence within the team.
